Work Experience

Randolph County Schools: Asheboro, NC — *Classroom Teacher, Southmont Elementary School*

- Organized school wide spreadsheets used to collect student data.
- Planned lessons, activities to ensure all NC Standards were covered.
- Collaborated with colleagues, parents, and administrators to develop improvement plans that support a specific child's learning needs.
- Organized and facilitated 5 groups of students to compete in the North Carolina Regional and State mathematics fair.
- Initiated a classroom behavior program that is now implemented across all grade levels and classrooms.
- Developed and facilitated the school soccer club for grades 2-5.
- School Math Teacher of the Year for the 2016-2017 school year.

- Created a completely new school wide daily schedule to maximize instructional time and ensure planning times, special needs instruction, and core instruction expectations were met.

Projects

Date Night at Home
http://bit.ly/dateNightRepo | http://bit.ly/dateNightApp
A simple app that can be used to generate three restaurants in the user's area based on user preferences.
Skills used: Server-side APIs (Open Movie Database, The Movie Database, Google Places), JavaScript/jQuery powered HTML and CSS with a responsive web application

Teacher/Student Dashboard
http://bit.ly/dashboardRepo | http://bit.ly/dasboardDeployment
Aa application that can be used for teachers and students to organize schoolwork/resources, turn-in assignments, and communicate with each other.
Skills used: HerokuAPI, JavaScript/jQuery powered Handlebars and CSS with a responsive web application

Day-Planner
http://bit.ly/plannerRepo | http://bit.ly/plannerDeployment
An app that allows the user to save hourly to-do list items and saves the items to local storage. When the user returns or refreshes the website their saved items will appear on their planner.
Skills used: JavaScript/jQuery powered HTML and CSS with a responsive web application, moment.js, localStorage
